

Word Art

Now let's add a fun title to your first slide.

1. Go to the **Insert** menu and highlight **Picture**. When the pop-menu appears, select **WordArt**.
2. The following **WordArt Gallery** Window will appear.

3. Click on one of the **styles** and then the **OK** button.
4. The **Edit WordArt Text** window will appear.

5. Type your title. Make any **font, size, or style** changes that you want.
6. Click the **OK** button.
7. When it appears in your document, click on it and drag it to place it anywhere in the document.

When experimenting with the Picture Toolbar features, use Cntl - Z (⌘ - Z for the Mac) to undo something that you don't like. Remember, however, that in most cases it only undoes the last command thing you did.

Control - Z
